Germany May Have President.
Copenhagen.—A committee of German experts, investigating the German political situation with the view to determining the most advisable form of government, has decided to recommend the formation of a German republic to be headed by a President, who shall have powers "midway between those of the American President and the British King." The President should have the right to form his own Cabinet, the committee advocates.

Girl Burned to Death.
St. Clairville, O.—Virginia Jones, 10 years old, daughter of William Jones, was burned to death and her parents were severely injured when their home was destroyed by fire. Fifteen automobiles, valued at \$25,000, were consumed by the flames, which spread to a garage owned by James Frazier. The fire started from a gas explosion in the kitchen.

Railway to Be Scrap Iron Heap.
Findlay, O.—After a long period of uncertainty, the fate of the Cincinnati, Findlay and Ft. Wayne railroad is apparently irrevocably sealed. The work of junking the line between this city and Ft. Wayne will begin the latter part of the week. Two crews are now on hand, the work starting at the Ft. Wayne end first.

Navy Cut Out Urged.
Washington.—All shipbuilders working on navy destroyers contracts were in conference with Secretary Daniels to discuss a new program. With the necessity for urgent haste in construction passed, the Secretary indicated his purpose to cancel contracts where work has not been started so that keels laid from now on may be for craft designed in the light of war experience. There is no intention, Mr. Daniels said, of reducing the destroyers.

This passenger train was recently wrecked near Brighton from some unknown cause.

Welch, member of the state railroad commission, returned from a trip to the Highland rim, where they succeeded in locating 300,000 acres of land suitable for colonization under the plans of Secretary Lane, of the interior, for returning soldiers and sailors. Much of the land located lies in Cumberland and Putnam counties.

HOOVER COMPLETES EUROPEAN SURVEY

SUPPLIES MUST BE INCREASED
TO TIDE WINTER IN BELGIUM HE SAYS.

Additional Shipping of 160,000 Tons Needed to Carry Clothing and Food, Report States—Work of American Relief Officials Praised.

Western Newspaper Union News Service.

Washington, D. C.—Physical damage wrought in Belgium by the German armies is described in a cablegram received by the Food Administration from Herbert Hoover, who, with William B. Poland, European director of the Commission for Relief in Belgium, just has completed a survey of conditions in this liberated country. On the basis of Mr. Hoover's report, the Food Administration announced today that hereafter 180,000 tons of supplies, including clothing, would be shipped to Belgium each month. As this program will require 100,000 dead weight tons of shipping in addition to the 340,000 tons now on charter to the Relief Commission, application for additional tonnage has been made to the Shipping Board.

The cost of the entire relief program will be borne by the Belgian and French Governments from loans made by the American Government. France's part of the expense will be for supplying the people of Northern France as well as several hundred thousand refugees who were forced from that section into Belgium during the retreat of the German forces.

Mr. Hoover's report on this survey of Belgium says:

"Together with Mr. Poland, European director of the Commission for Relief in Belgium, I have completed a survey of the entire Belgian situation as disclosed by the evacuation. The work of the American relief officials in Europe during the past month has been followed up all praise, because they have followed up the retreating army with distributions, by one means or another, and there has been no break in the food supply at any point.

"Prior to the signing of the armistice the German army had destroyed a zone of railroads and canals 20 miles wide, extending across Belgium. After the armistice was signed there was comparatively little destruction of transportation facilities across this zone of destruction the problem of distribution can be undertaken with less difficulty than at present. The Germans in their final retreat removed but little of the relief supplies. Their action toward the native harvests and cattle in their withdrawal differs widely in different areas. They started to take all remaining hogs from the western part of Belgium, except those hidden by the peasants in underground caves.

Lawlessness Adds to Horrors.

Warsaw.—The hordes of released prisoners, who are making their way homeward through Poland, all of whom appear to be tainted with Bolshevism and are recognized as a danger in this respect by the Polish authorities, are causing much trouble by their lawlessness in their search for food. The Bolsheviks are taking advantage of the penniless plight of these first thousands of released prisoners, whose number is estimated at 2,000,000, and have picked up several thousand of them for their army by offering them clothing, food and money, of the last of which there is plenty, since the Bolsheviks control the printing presses for the production of rubles.

Yank Troops Healthy.

Coblenz.—The percentage of sickness among the occupying troops is unusually low, according to the estimates of the Third Army medical officers. The number of cases in the eight evacuation hospitals within the occupied area is about 4,000, most of them being influenza. Figuring the number of occupying troops as 300,000 the sickness amounts to less than 1 1/2 per cent. In peace time the sickness among soldiers averages from 2 to 3 per cent.

Dayton Woman Killed.

Dayton, O.—When northbound Baltimore and Ohio Passenger No. 6 struck an automobile occupied by Mr. and Mrs. Forest Decker at the Broadway crossing Mrs. Decker was instantly killed and Decker suffered a fracture of the skull and internal injuries, from which it is expected death will result.

Bandit's Victim Dies.

Cleveland, Ohio.—Patrolman Patrick J. Gaffney, who was shot as the result of a running battle with two gunmen several days ago died.

Former Governor Dies.

Little Rock, Ark.—Former Governor Dale W. Jones died at his home here. He was born in Bowie county, Texas, December 15, 1839. He served two terms as Governor and one as attorney general of Arkansas. He was a Colonel in the Confederate army.

American Consul Held.

Odessa.—The Bolsheviks have arrested American Consul Treedwell at Tashkent, Russian Turkestan, according to a wireless message received here.
